

April 2017

Dear Applicant

Thank you for your interest in the post of **Science Teacher (Physics specialism an advantage)**

JCoSS is an academic, aspirational learning community with an innovative and pluralist Jewish ethos. Opened in 2010 in a new £48m building, our first cohort graduates from Year 13 this summer. The school enjoys an excellent reputation across North London and is heavily oversubscribed, as a result of which we are expanding our intake by 30 places to 210 from 2017. Our early cohorts have achieved outstanding GCSE results, with 40% of grades at A* and A, and just under a quarter of students achieving 9A or better. We have consistently achieved ALPS Grade 2 at both GCSE and A level, putting us in the top 10% for added value, and were amongst the top 100 non-selective schools nationally in 2015. Our 2015 Ofsted inspection graded us Good with a number of Outstanding features, including the 6th form and our provision for students with SEN.

Our staff are enthusiastic professionals who combine commitment and flexibility, and the culture of the school is one of purposeful good humour and humanity. Our families are motivated, eloquent and supportive, with high expectations, and our students are enormous fun to teach. We are determined to offer them the very best academic and vocational education, and to support and challenge all in attaining the highest results and developing open hearts and minds.

We seek to appoint a dynamic and enthusiastic teacher to join our Science team. The School opened with a Science Specialism and it continues to enjoy a prime position in the JCoSS curriculum. The Faculty currently includes Biology, Chemistry, Physics and Psychology, and is housed in excellent facilities with ample resources and a strong sense of Faculty cohesion. Results are excellent: our first GCSE cohort achieved A*-C pass rates well over 90% in all papers. We currently teach the AQA Science specifications at both Key Stage 4 and 5.

We need a well-qualified science teacher to teach general Science at Key Stage 3 and their specialism to Key Stage 4. There may be the opportunity for a suitably qualified candidate to teach their specialism at Key Stage 5. These possibilities would be explored at interview.

Additional responsibilities may be available for suitably qualified and experienced candidates, and we offer NQTs employment for the last few weeks of the summer term. We are proud of our outward-looking and pluralist Jewish ethos. Our staff and leadership includes colleagues of different faiths, and none, at all levels, and our admissions policy includes priority places for the children of all staff.

Please complete the application form as fully as possible, and attach a separate letter of application. As a guide, this should be no more than two sides of A4, addressing the criteria identified in the Person Specification, explaining how your experience has prepared you for this role and school, and outlining a vision for your contribution to JCoSS. The closing date for applications is 9 a.m. on Friday 28th April and the interviews will be on Thursday 4th May, however we reserve the right to interview before the closing date. Successful shortlisted candidates will be contacted by email or telephone. The successful applicant will take up post in September 2017.

JCoSS is committed to safeguarding and promoting the welfare of children and young people and expects all its staff and volunteers to share this commitment. All posts are subject to satisfactory enhanced Disclosure & Barring Service (DBS) clearance.

Should you have further questions or wish to have a confidential conversation, please contact Dr Hannah Oliver, Head of Science Faculty, at the school. We look forward very much to receiving your application.

Yours sincerely

A handwritten signature in black ink that reads "Patrick Moriarty". The signature is written in a cursive style with a large, prominent initial 'P'.

Patrick Moriarty, **Headteacher**
