What parents can do to support learning		<ul style="list-style-type: none"> • Encourage students to spend a good amount of time learning vocabulary and word tables. 'Little but often' should be the mantra! Offer to test them on these. Make sure they spend their time on the words that they do not yet know (rather than going over ones which they are confident with). Flashcards can enable them to do this very efficiently. • Work with students on using the dictionary at the back of their text books and their grammar notes, rather than Google Translate. Translating word for word rarely works but many students at this stage of their learning do rely on it when completing tasks at home. This inhibits their progress as it is precisely the process of translation – i.e. the steps involved in figuring out what the Latin means - that they need to learn.
