

ARTIFICIAL INTELLIGENCE POLICY FOR PUPILS AND PARENTS

Policy Introduced:	July 2026
Next Review:	by the end of the Summer Term 2027
Note:	This is a working document and kept under regular review
Committee:	Inclusion

Background to the policy

Although Data Protection law does not specifically define or discuss the guidelines for Artificial Intelligence ('AI'), the guidance from the Information Commissioner's Office and the UK government defines it as using non-human systems to imitate human intelligence.

In this time of constant development and increased usage, there is a need to provide you with an awareness of how AI will be used by the school and the guidelines for usage by pupils, especially if being used to complete school work.

As AI technology is evolving rapidly, policies, regulations, and best practices are likely to change frequently therefore this policy is under regular review.

Staff authorised usage of AI

We permit the informed and responsible use of generative AI applications by staff in carrying out identified business activities. Staff will comply with the terms of the workforce specific policy when using generative AI to carry out business activities.

We do not permit or encourage the usage of AI to process personal data at this time and any misuse will be investigated and may result in sanctions.

Authorised AI applications

The school allow access to the AI applications listed in Appendix A for business purposes.

The listed AI applications may be updated at any time.

Pupil usage of AI

As captured in Appendix B, we will require parents/pupils to sign an Acceptable Use Agreement to ensure appropriate usage of AI and they are reminded of the permitted usage along with an outline of what classes as AI misuse.

The school permits pupil usage of AI in the following circumstances:

- (a) As a research tool
- (b) Idea generation for projects
- (c) For use with coursework or homework with the above requirements fulfilled

Data Privacy

We do not permit or encourage the usage of AI to process personal data at this time but are aware of the data protection responsibilities to be transparent of such usage and will update the policy as and when needed.

Related Policies

Pupils (and parents) can refer to the following policies, available on the school website, that are related to this AI Policy: -

- Data Protection Policy
- IT and E-Safety policy
- Acceptable Use Agreement
- Malpractice policy

Appendix A Authorised AI Applications

Appendix B – Acceptable Use Agreement - Usage of AI

This Acceptable Use Agree is designed to ensure appropriate use of AI when completing schoolwork ensuring it is consistent with government and exam board guidelines.

AI tools can only be used as set out within this statement. For examinations and coursework, AI must only be used when the conditions of the assessment permit its use.

AI tools should only be used in limited circumstances and where expressly permitted by a staff member. In the absence of this permission, AI tools should not be used to supplement and support pupil works.

We permit AI uses in the following circumstances:

- (d) As a research tool
- (e) Idea generation for projects
- (f) For use with coursework or homework with the above requirements fulfilled

Where AI is permitted, it must not be misused in accordance with this statement. Examples of AI misuse include, but are not limited to, the following:

- Copying or paraphrasing sections of AI-generated content so that the work is no longer the pupil's own;
- Copying or paraphrasing whole responses of AI-generated content;
- Using AI to complete parts of the assessment so that the work does not reflect the pupil's own work, analysis, evaluation or calculations;
- Failing to acknowledge use of AI tools when they have been used as a source of information;
- Incomplete or poor acknowledgement of AI tools; or
- Submitting work with intentionally incomplete or misleading references.

Therefore, pupils must ensure that any information cited within schoolwork found using an AI system or software, must be referenced in the same way any other article or quotation would be. The Joint Council for Qualifications have confirmed that pupils must show the name of the AI source used and should show the date the content was generated.

I confirm that I have read, understand, and will comply with the terms of this Acceptable Use Statement relating to the use of AI.
